I AM MERILLAT.®

We believe that a great kitchen or bath is more than style deep. That is why, in addition to our extensive choices, we also give you cabinets delivered in days – not weeks.* And a 25-year limited warranty. It’s more than cabinetry. It’s dedication.

Dan Smith
Director of Product Management, Merillat Cabinetry
Cabinet Industry 25 years

DID YOU KNOW?
Your door style choice, the wood type you select and the color you finish the cabinets with are three separate choices that create your unique look. Go to Merillat.com.

23 Warranty
Wood type.

The wood type you choose makes a difference. Each type has its own unique grain variation and can have a dramatically different look when color is applied. It’s important to understand the differences and find the one that fits your style. – Dan Smith, Director of Product Management, Merillat Cabinetry

Maple

Maple is a popular choice featuring a fine uniform grain that takes a color quite well. Maple is versatile and available in nearly every color combination. A very consistent wood type.

Cherry

Cherry is moderately hard and heavy, and has a fine-to-medium uniform grain. Cherry is commonly thought of as a deep color, but is quite different depending upon your choice of stain. Expect variations.

Hickory

Hickory is a very heavy, hard wood, and has a grain with quite a bit of variance. This creates a design element in and of itself, taking on colors in unique ways. No two doors will look alike.

Oak

Oak is a heavy, hard wood, and has a medium-fine, noticeable grain. It gives you dramatic lines that play quite differently off of each color.

Thermofoil

Thermofoil is a solid colored vinyl that is applied to smooth, engineered wood or Medium Density Fiberboard (MDF). Easy to clean and built to last, Thermofoil cabinetry gives you a uniform appearance.

Veneer

A veneer is a thin piece of solid wood that is attached with glue to a supporting board. Veneered components are more uniform in finish and grain, and commonly used as the material for the center panel of a door.
Door type.

Cabinetry can be confusing. There are many terms and differences that are presented – important differences that will affect the look and life of your space. We’ve developed this simple glossary of terms to help you make decisions within this book and with your designer. – Dan Smith, Director of Product Management, Merillat Cabinetry

Overlay. What is it and why?

Partial Overlay.
Overlay is the amount of face frame covered by the door and drawer. The reveal on partial overlay cabinets is typically 1 inch. A partial overlay creates a traditional look, and is typically less expensive.

Full Overlay.
An overlay that covers most of the face frame, giving prominence to the door and drawer design. A full overlay creates a more custom and clean look.

Center Panel. What is it and why?

Recessed Panel.
The center goes inward. Recessed panel designs create a fresh look.

Raised Panel.
The center panel is raised. It provides design dimension and interest.

Slab Panel.
A flat panel with no variance in the center. It provides a clean, modern look that dares to be simple.

Shape. What is it and why?

Arch.
The top of the panel is curved. It provides an architectural element and design interest (wall or tall cabinets only).

Square.
Panels that have right angles on all sides. Creates a look like a framed piece of artwork on every door.
Joint type.

For doors with multiple construction elements, Merillat Cabinetry utilizes two types of joint construction – Miter or Mortise and Tenon. Both types create a unique look. – Dan Smith, Director of Product Management, Merillat Cabinetry

Door & Drawer Front Joints.

Miter.
What is it and why?
Created for the purpose of framing a decorative front, this joint is made by bringing together two parts at equal angles to form edges.

This creates a clean design and adds to the construction strength by increasing the surface area where joints come together.

Mortise and Tenon.
What is it and why?
A joint made when the tenon (a portion of wood cut so that it is jutting out from the larger block) is placed inside the mortise (a cavity created to hold the tenon).

This joint is created to fit together, strengthening the bond between them, creating long-term durability and a natural strength.

Drawer Core Joints.

Rabbeted (standard).
What is it and why?
A rabbet joint is created by joining two boards together at the end where a portion of one board is cut out to match the thickness of the other board.

A rabbet joint creates a sharp right angle edge, creating a strong joint.

Dovetail (upgrade).
What is it and why?
Dovetail joints are created when two parts are brought together, one part with slots created by cutting angled, pyramidal holes, the other with pins cut to fill them.

A dovetail joint is considered to be one of the strongest joints, with the pieces coming together and locking for tremendous durability and length of life.
Our construction.

At Merillat Cabinetry, we take great pride in our craft. Our mission? To build exceptional cabinetry that will be as durable as it is beautiful. That begins with our materials, and it continues with our processes, but it truly is our people who put the Merillat® Cabinetry stamp on everything we build. For complete construction information, visit Merillat.com.

Durable construction.

Built to work and last. ⅜” thick end panels attached with wood-to-wood glue and staples.

Meets or exceeds KCMA standards.

We have our own testing facilities to make certain our cabinets meet or exceed the standards set by the Kitchen Cabinet Manufacturers Association (KCMA).

Finished look.

With ¾” thick, industrial-grade, engineered wood end panels.

Strong shelves.

Made from ¾” thick engineered wood.

25 Year Limited Warranty.

For more information, visit Merillat.com.
Choose your strength.

Durable standard construction.

- Built to work and last. 3/8" thick end panels attached with wood-to-wood glue and staples.
- Add Dovetail drawers for an upgrade.

Plywood end panel option.

- Upgrade to 3/8" furniture grade plywood for added strength and an exceptional look.
- Add Dovetail drawers for an upgrade.

All plywood construction option.

- Consider adding furniture grade plywood throughout construction for durability and a furniture quality. Upgrade includes 1/2" thick, industrial-grade plywood end panels.
- Dovetail drawers are included in this option.

Dovetail drawer option (upgrade).

- 3/4" thick dovetail drawer cores for a solid frame and durability.
- SoftAction® soft close drawer guides are included.

Glass inserts.

Inserts.
You can now customize your own glass insert for your cabinet door. Our Mullion, Prairie, or Glass doors can now be ordered without glass, allowing you to select the insert that best fits your look.

Glass Doors: Fusion, LaBelle, and Lariat door styles are available only in Full Glass. Portrait (including Portrait with 5-Piece Drawer Front), and Avenue (including Avenue with 5-Piece Drawer Front) are available only in Prairie. Tolani (including Tolani with 3-Piece Drawer Front) door style is available in both Full Glass and Prairie Mullion Glass.
Colors.

Maple Stain

Stain Process
Stain is applied and brush-wiped to desired color. Next, sealer is applied to protect the finish and prevent warping and cracking of the hardwood. Sealer is then sanded to develop a bonding surface for the topcoating process. As a final step, a heat activated topcoat is applied to provide a beautiful and durable furniture finish. Finish availability may vary by door style. Consult with your Merillat® cabinetry designer.
Maple Stain w/ Glaze

**Stain w/ Traditional Glaze Process**

Stain is applied and brush-wiped to desired color. Next, sealer is applied to protect the finish and prevent warping and cracking of the hardwood. Sealer is then sanded to develop a bonding surface for the glazing and topcoat process. Glaze is applied by hand (face side only) to corner hang-ups and profile recesses depending on door style. As a final step, a heat activated topcoat is applied to provide a beautiful and durable furniture finish. Finish availability varies by door style. Consult with your Merillat® cabinetry designer.

Want to add elegance and depth? Try a glaze. A glaze is a hand-wiped technique that adds richness after the color is applied. Door styles that have more detail are excellent candidates for glazes, because the glaze binds to details and brings them out. – Dan Smith, Director of Product Management, Merillat Cabinetry

Maple Stain w/ Accent

Stain w/ Accent:
Natural w/ Java Accent

Toffee w/ Java Accent

Sable w/ Ebony Accent

Stain w/ Accent:
Hayden w/ Java Accent

Stain w/ Accent Glaze Process
Stain is applied and brush-wiped to desired color. Next, sealer is applied to protect the finish and prevent warping and cracking of the hardwood. Sealer is then sanded to develop a bonding surface for the accent glazing and topcoat process. Accent glaze is applied by hand to specific door and drawer front profiles depending on door style and then cured. As a final step, a heat activated topcoat is applied to provide a beautiful and durable furniture finish. Finish availability varies by door style. Consult with your Merillat® cabinetry designer.

Paint Process
Our painted finishes consist of several coats of pigmented semi-opaque enamel paint that is allowed to saturate the hardwood, developing richness while allowing some of the natural grain to remain visible. As a final step, a heat activated topcoat is applied to provide a beautiful and durable furniture finish. Finish availability varies by door style. Consult with your Merillat® cabinetry designer.

– Dan Smith, Director of Product Management, Merillat Cabinetry
Masco Cabinetry LLC 25 Year Limited Warranty.

Masco Cabinetry LLC warrants to the original consumer purchaser that our Merillat Classic® cabinetry will be free from defects in material and workmanship under normal use for a period of TWENTY-FIVE (25) YEARS from date of purchase. This warranty is not transferable. No changes or modifications can be made to this warranty except by an officer of Masco Cabinetry LLC.

Masco Cabinetry LLC may elect to repair or replace any defective Merillat Classic® product covered by our warranty.

THIS WARRANTY DOES NOT COVER:

• The natural aging or darkening of wood color, or the inherent growth characteristics of, or variation, in wood.
• Defects caused by misuse, abuse, negligence, alterations, environmental conditions, improper installation, storage or handling.

As with other natural materials, wood is affected by environmental factors such as natural and artificial lighting. Darkening or mellowing of the wood can be expected and is a natural process of wood as it ages. Each wood species also exhibits its own distinctive patterns and characteristics that add to its natural beauty. These variations in color and characteristics are not considered imperfections or defects.

Masco Cabinetry LLC further provides a Lifetime Limited Warranty on the door hinges and drawer guides to the original consumer purchaser for as long as you own the product. This Lifetime Limited Warranty provides that the door hinges and drawer glides will be free from defects in material and workmanship under normal use. Replacement hinges and drawer glides are subject to their availability from our suppliers.

From time to time, we will change design, specifications and materials as conditions require and improvements are developed, but we have no obligation to incorporate such changes in products we previously manufactured.

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THIS WARRANTY DOES NOT COVER INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, LOSS OF USE, OR LABOR EXPENSES IN UNINSTALLING OR INSTALLING ANY MATERIAL OR PARTS, WHETHER ARISING OUT OF BREACH OF WARRANTY, BREACH OF CONTRACT, NEGLIGENCE, TORT, OR ANY OTHER LEGAL THEORY, EVEN IF MASCO CABINETRY LLC HAS BEEN ADVISED OF THE POSSIBILITY THEREOF. MASCO CABINETRY LLC DISCLAIMS RESPONSIBILITY FOR DAMAGES IN EXCESS OF YOUR PURCHASE PRICE. Some provinces and some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty is only valid in the United States of America and Canada. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state and from province to province.

To obtain performance under this warranty, you must contact your Merillat Classic® supplier and report, in writing, all defects claimed and provide your original sales receipt or other documentation acceptable to Masco Cabinetry LLC. If you have difficulty obtaining assistance, write to: Merillat Classic® Warranty Department, Masco Cabinetry LLC, 4600 Arrowhead Drive, Ann Arbor, Michigan 48105 USA

For cabinetry purchased on or after January 5, 2009.
